

Government 2.0 Talking Points

Sarah M. Kaufman
MTA New York City Transit

Innovative Solutions

- Washington, DC's Apps for Democracy
 - www.appsfordemocracy.org
- BART and social media
 - bart.gov
- TSA Blog
 - www.tsa.gov/blog
- Portland TriMet developer resources
 - developer.trimet.org

iBus

Searches for nearest stops, provides arrival information and displays a map.

For iPhone, iPod Touch

iNap

Alerts you when nearing a destination.

For iPhone

Gov 2.0 Pros

- Releases data in channels outside of our purview
- Allows for most efficient use of our services
- Saves time & money
- Fosters goodwill with the community
- Most creative solutions will likely come from the public

Gov 2.0 Cons

- Internal resources still required: monitoring data uses, active listening to new channels, responding in new formats
- Need to ensure data remains accurate
- Need to ensure information reaches all communities, including disabled
